

Java Course Structure

- Module 1: Computer Fundamentals & Programming Basics
- Module 2: Control Statements
- Module 3: Methods & Arrays
- Module 4: Object-Oriented Programming (OOPs)
- Module 5: String Handling & Wrapper Classes
- Module 6: Exception Handling
- Module 7: Collections Framework
- Module 8: File Handling
- Module 9: Multithreading
- Module 10: Java 8 Features
- Module 11: JDBC (Database Connectivity)
- Module 12: Advanced Java (Java EE)
- Module 13: Spring Framework
- Module 14: Spring Boot
- Module 15: Git & GitHub
- Module 16: Build Tools & Deployment
- Module 17: Real-World Projects
 1. Beginner Projects
 - a. Calculator
 - b. ATM System
 - c. Quiz App
 2. Intermediate Projects
 - a. Library Management
 - b. Hospital Management
 - c. Chat Application
 3. Advanced Projects
 - a. E-Commerce Application
 - b. Food Delivery Backend
 - c. Banking Application
 - d. LMS (Learning Management System)
